

REMARKS

The Specification of the instant application has been amended to correct typographical errors. It is believed that no new matter is involved in the amendments or arguments presented herein.

Applicant respectfully points out that due to typographical errors, the first two references to "hydrogen concentration" on page 34 of the present Specification, appear as "oxygen concentration" instead.

As is evident from the claims of the present Application, the invention concerns an R-T-B magnet with a magnet body having a hydrogen rich layer of a certain thickness with a hydrogen concentration within a prescribed range. (Emphasis added). Moreover, except for the above two occurrences, the rest of the Specification consistently refers to "hydrogen concentration." In light of the above, the two noted references to "oxygen concentration" are clearly due to typographical errors that should be corrected.

Reconsideration and entrance of the amendment in the application are respectfully requested.

Specification Amendment

The Specification has been amended to correct two typographical errors.

Consideration and entrance of the Specification amendment are respectfully requested.

Conclusion

In view of the foregoing, it is respectfully submitted that the application is in condition for allowance. Reexamination and reconsideration of the application, as amended, are requested.

Appl. No. 10/562,986
Amdt. Dated August 19, 2008
Supplemental Amendment to Office Action of March 17, 2008

Attorney Docket No. 81864.0080
Customer No.: 26021

If for any reason the Examiner finds the application other than in condition for allowance, the Examiner is requested to call the undersigned attorney at the Los Angeles, California telephone number (310) 785-4721 to discuss the steps necessary for placing the application in condition for allowance.

If there are any fees due in connection with the filing of this response, please charge the fees to our Deposit Account No. 50-1314.

Respectfully submitted,
HOGAN & HARTSON L.L.P.
